

Dear Colleague,

We are pleased to invite you to submit an abstract to the minisymposium "Pore-scale Modeling and Experiments on Multiphase Flow in Porous Media" ([MS2.28](#)) at the 9th International Conference on Porous Media ([InterPore 2017](#)) in Rotterdam, The Netherlands. The conference will be held in May 8 – 11, 2017 at the [De Doelen International Congress Centre](#).

Contents of the minisymposium include direct numeric simulations on the pore-scale, pore network modeling, microfluidic experiments, and non-invasive observations of multiphase flow in porous media. There are no restrictions to numerical methods.

A keynote will be given by [Prof. Ivan Lunati](#) from the University of Lausanne on his recent research.

Please submit your abstract for oral and/or poster presentations on the conference website:

<https://www.interpore.org/116-event-booking/9th-international-conference-on-porous-media-annual-meeting/318-abstract-uploading-16>

The deadline for submitting abstracts is **November 14th, 2016**.

We are looking forward to see you in Rotterdam.

Best regards,

Philip Kunz, Manuel Hirschler, Ute Tuttlies
(University of Stuttgart)
Bo Guo
(Stanford University)
Chaozhong Qin
